Abstract

This article analyses Sadness in Selected Song Lyrics from Westlife's Album "Coast to Coast". Sadness was chosen as the topic of discussion because the sadness dominates the writers' feeling listening to the songs. The objective of the study to describe Westlife's songs and to show sadness in Selected Songs Lyrics from Westlife's Album "Coast to Coast". Sadness in Westlife's songs that to analyse becomes the source of the data. The method of the research is descriptive qualitative. The data are taken from the song's lyrics. And a method of visiting libraries to find references that have connection with this study. Finally, in analysing the Westlife's songs, the writers find some sense of sadness like missing best friends, parents, etc. Missing someone is very sad because no one can replace his or her position.

Keywords: Song Lyrics, Sadness, Feeling.

INTRODUCTION

Music is a tool of culture that is present in society as the construction of social reality as outlined in the form of song lyrics. At first, the requirement of song was used for the traditional ceremonies and rituals. However, as the development of society music has been transformed into a commodity shifted commercialized and become economic things are bought and sold. Ahmad (2012)

He further states that music is a complex social behavior and universal that contained an expression of human thoughts, ideas, opinion, and others. Messages or ideas conveyed through music or songs usually have a relationship with the historical context. It means that discourse is more than a message from sender to a receiver and from the speaker to the listener. By writing a song lyric, people are easy to show their feeling and emotion. The song lyrics vary in terms of textual

2

meaning. Generally, the hearers of the songs have different interpretation to understand the meaning of the songs. The song lyrics vary in terms of textual meaning. Generally, the hearers of the songs have different interpretation to understand the meaning of the songs. To understand the meaning in text, people must have semantic skills. Language is a tool of communicating and expressing people's ideas, feelings and expectations when they interact to each other. According to Wibowo (2001:3), language is a system of symbols that are meaningful and articulate sound which are arbitrary and conventional, which is used as a means of communicating by a group of human beings to give birth to feelings and thoughts.

According Keraf in Smarapradhipa (2005:1), providing two language understanding. The first notion of language as stated means of communication between members of the public in the form of a symbol of the sound produced by means of said human. Second, language is a communication system that uses symbols vocal (speech sound) which are arbitrary.

According to the Grolier (2012), "Song is a short musical work set a poetic text with equal importance given to music and to the words". "Song is a short metrical composition intended for singing."

Song sometimes used to refer to any music composition, even those without vocals. In Indonesia classical music, jazz, brass band, popular music, and many other musical styles however, this usage is considered incorrect. Song should only be used to describe a composition for human vocals. In music styles that are predominantly vocal – based, a composition without vocals is often called an instrumental. A musical piece that may be either with or without vocals can be called a melody, a tune, or a composition. (Juwita, 2009).

According to Grolier (2012), Lyrics are the compositions in verse which is sung to a melody to constitute a song. Lyric is expressing deep personal emotion or observations.

At here the writer would like to discuss about the sadness feeling that are often experienced by everyone, both in everyday life, feeling sad because have some problems that happened in family, sadness for the departure of someone who is loved and love, like a boyfriend, friend, or family.

There are things in life that show the effects of human feelings and their gesture when feeling sad. For writers, sad is when we feel worried about something we feel hurt. It can break down our heart and depressed on it. Feeling lost and scared. All the lessons learned from human experiences to certain extent sadness inseparable from human existence.

Maintain a feeling of sadness is not happy, especially because something bad has happened. Can someone explain what sadness and how sadness can affect people in their lives. Sadness itself, in this case, can be expressed with the song. When a person has to be expressed sadness, the song is a unique way because, through feelings of music will be more clearly felt and will be sent.

The problem of the article is "How significant is sadness presented in Westlife's album coast to coast selected song lyrics?" The writers focus on the feeling sadness of Westlife's song's lyrics by using the theory of emotions, and the true meaning of sadness in the Westlife's song lyrics and also the aspects of sadness that portrayed Westlife's selected song lyrics. The writers analyze Westlife's

songs in coast-to-coast album, they are My Love, No Place That Far, Soledad, When You're Looking Like That, Close Your Eyes, If I Let You Go, Fool Again, Open Your Heart, In This Life and I Cry. The writer hopes this thesis will have some benefits, by knowing the true meaning of sadness in their lives, knowing Westlife and their works that can inspired many people and appreciate literary works, especially song, better than before. Moreover, they can improve their skill and understanding of literary work, especially song.

METHOD

This study applies descriptive qualitative methodology because the data are lyrics in the song. Burns and Grove (2003:19) describe a qualitative approach as “a systematic subjective approach used to describe life experiences and situations to give them meaning”. Holloway and Wheeler (2002:30) refer to qualitative research as “a form of social enquiry that focuses on the way people interpret and make sense of their experience and the world in which they live”. Researchers use the qualitative approach to explore the behavior, perspectives, experiences and feelings of people and emphasize the understanding of these elements. The data are taken from some selected song lyrics from Westlife's *Coast to Coast* album by download the song from some websites or YouTube. The songs are *My Love, No Place That Far, Soledad, When You're Looking Like That, Close Your Eyes, If I Let You Go, Fool Again, Open Your Heart, In This Life and I Cry*

FINDINGS

The significant of sadness

If we hear the word sadness or grief, then what arises in our mind, is an unhappy feeling that makes one unhappy. Sadness is the simple, general term, ringing in implication from a mild momentary unhappiness to a feeling of intense

My Love

This song has its own meaning for the creator of his own material, for Westlife, this song is a song that describes sadness feeling by a person that makes people feel lonely and become sad because he or she can't reach the love. It can be seen in this quotation below:

*An empty street, an empty house
A hole inside my heart
I'm all alone, the rooms are getting smaller.
I wonder how, I wonder why, I wonder where they are
The days we had, the songs we sang together, oh, yeah.
And all my love, I'm holding on forever
Reaching for the love that seems so far*

Sadness:

In the quotation above that contains sadness, if someone felt loneliness that loneliness will make us feel sadness and miss that person. The word of “loneliness” is connected to the word “alone”. He or she will see everything is black and

would not be able to do anything else outside of its activities until the feeling came back and do not feel sad anymore. If a person feels sad, then that person would do and hear what you think with his desire alone that would make him better or not sad anymore. Asking advice from others and hearing the music which was accordance with the feeling.

But of sadness described by Westlife, still have a hope in the song. Westlife suggests that tears are not always a sign of sadness or unpleasant events that have happened before. Look at this quotation:

*So I say a little prayer.
And hope my dreams will take me there
Where the skies are blue to see you once again, my love.
Overseas from coast to coast
To find the place I love the most
Where the fields are green to see you once again, my love.*

In the quotation above Westlife wants to say that is not always result in tears of sadness which it is a bad thing. Westlife believes behind sadness there is always have a hope and beauty which intimated with a prayer, because Westlife assume that people shall know that the prayer is a natural hope when we praise to God with whole of our heart. Because God always lives in our hearts and God always see us from top of the sky and God also can know what happen in our life as we know God always stay beside us. If we have something bad or something that will make our feeling become sad, we just pray to God to get a tranquillity in our hearts. Also, if we hope on something that we not yet get or we want to get something we just pray in the name of God and keep on believing in God, because God know everything about us. God give us live, breath and a decent life in this world. God never make us feel sad; God always understand what happened to the human life in this world never left human in this world, God always give support to every people in this world.

4.1.2 No Place that Far

Has become the norm if someone is having tears of sadness because for some people argue that with their tears would be able to reduce the burden of sadness they are feeling. As quoted by the writer of stanza in the Westlife's song :

*I can't imagine any greater fear
Than waking up without you here
And though the sun would still shine on
My whole world would all be gone
But not for long*

Sadness:

Of the stanza above, can be interpreted that afraid of losing someone he really loves. From this feeling of lost it also can comes feeling of sadness. The sadness could come from anywhere, either because someone had done something wrong to you or when you loss someone or abandoned by someone who you really love. And, if we really love someone, we must take care of the love that we have. We can complete our problems with discussion or an open mind no need to be sad until a long time. We must raise and solve our problems do not feel sad until long time because still have time and another people that can become our love in the future. We need to learn from the past and look out in the future.

If you love someone who is going to leave you, then at that time you would have feel sad because you feel no one else can love you like a person who has abandoned you. You definitely feel alone and unable to stand alone without love.

*It wouldn't matter, While we're apart
Lonely mouths, two stubborn hearts
Nothing short, of God above*

Could turn me away, from your love

I need you that much

In this stanza above, can be interpreted someone doesn't care how far they apart with each other, feel lonely, because he still believes that God will give him way to reach his love back. Because the man really loves the woman and will do all the best that he can do to reach his love. If we trust each other and keep that trust We will surely come back even though we are only separated for a while. Because in a relationship of belief about each other is very important. If we trust each other's relationship will be more tightly and united.

4.1.3 Soledad

In this song Westlife describes the feelings of broken heart and disappointment whom one feels to the partner who has made a mistake made his lose faith in her partner. But in fact, his partner still hopeful that she can be excused from her mistakes and hope that they can meet again and be able back to their relationship as it once again. But not only disappointment that Westlife describes on this song, that also have sadness feeling.

*Soledad
It's a keeping for the lonely
Since the day that you were gone
Why did you leave me
Soledad
In my heart you were the only
And your memory lives on
Why did you leave me
Soledad*

Sadness:

In the quotation above, any person, if there is someone who made a mistake and make him upset, angry, resentful, sad and disappointed, then that people would have felt very deep hurt because feeling of lost and feeling of lost become feeling sadness. Westlife like to convey any kind of pain that you feel we should be able to forgive that person and do not judge to him and positive thinking because there are many people who still love you and care about you. For instance, your family, and your friends, because they do not want to see you feel sad and hurt, they will always be there for you whenever you sad, wounded and crying.

*If only you could see the tears in the world you left behind
If only you could heal my heart just one more time
Even when I close my eyes*

*There's an image of your face
And once again I come to REALIZE
You're a loss I can't replace*

In the stanza above, can be interpreted: If you love someone who is going to leave you, then at that time you would have feel sad because you feel no one else can love you like a person who has abandoned you. You definitely feel alone and unable to stand alone without love. You would say to him that no one can replace his or her position then your world would be, meaning that no one else you can love other than that person, and you would think after that person left. Has become the norm if someone is having tears of sadness because for some people argue that with their tears would be able to reduce the burden of sadness they are feeling. If we're sad to never help but feel sad that such a feeling but pour out so as not to create ill feeling and your heart becomes congested very painful. Because when you feel sadness, the tears would come out spontaneously and wet cheeks and face. The sadness could come from anywhere, either because someone had done something wrong to you or when you loss someone or abandoned by someone who really love you.

4.1.4 When You're Looking like That

In this song Westlife described sadness, which is state that has made someone feels the loss because of his mistakes. And he is very sorry for his actions as we know regret always comes late.

*How am I supposed to leave you now
When you're looking like that?
I can't believe what I just gave away
Now I can't take it back
I don't wanna get lost
I don't wanna live my life without you
How am I supposed to leave you now
When you're looking like that?*

Sadness:

In this song Westlife invites the listener to feel the sadness after the disaster struck, but behind all sadness, Westlife believes there is still hope and bright future of the disaster and hoping to realize the hope that we could assist their suffering, either by giving aid and comfort to the people or society.

In the quotation above, Westlife assumes that everyone has experienced sadness in their life although we are hurt does not mean there is no cure for the pain, if you feel loss, do not mean you completely loss it all, behind sadness still have a hope for you to get happiness of all.

*But she is out of my reach forever
And just a week ago she lied next to me
It's so ironic how I had to lose just
To see that I failed to love you
And you're taking it out tonight*

*I don't wanna forget you
I don't even wanna try*

How am I supposed to walk on by when you're looking like that?

In this quotation above, it also shows sadness feeling. Because his love far away from his life. And he must get failed because his love just stays beside him for while but he must fail because of his love. And he feels sad because he fails to love his love. He also feels sad because he must see his love dating with other people. If someone felt the sadness he or she would see everything black and not be able to do anything else outside of its activities until the feeling come back and do not feel sad anymore. If a person feels sad, then that person would do and hear what you think with his desire alone that would make him better or not sad anymore. Asking advice from others and hearing the music was in accordance with the feeling. However, you try to wipe away your tears on your face or to forget the feelings of sadness, and until that time it would not be easy because you have to do with how hard you try to do so then it would be even stronger feelings and will always stick in your head. One way to forget that sad feeling if you have to give up all the issues and try to do new things so you can get over your sadness. Because no one can help it, if not from your own doing and transform yourself to become a better person than before, although a very sad incident just happened to you.

4.1.5 Close Your Eyes

Westlife, in this song describes a man with sad that must leave his love. He was left his love and never will forget it. His love will still blossom in his heart forever wherever he is.

*I know I'm gonna see you again
But promise me that you won't forget
Cause as long as you remember
A part of us will be together
So even when you're fast asleep
Look for me inside your dreams
Keep believing in what we're sharing
And even when I'm not there to tell you*

*I'll, I'll love you forever
Anytime that I can't be where you are*

Sadness:

In the quotation above, Westlife describes a man who must left his love and feel sadness because of his love. Although, he must leave his love but his love would still lived in his heart and even though his love far from him he will still over there where his love will go. He was very faithfully waiting for his love there he also keep on believing about his love even though he wasn't there for his love but he ask his partner to look inside the dreams and inside the dreams the partner will see

the man. Even though the partner faster sleep, the man ask the partner don't to fast to forget the moments that they have together.

4.1.6 If I Let You Go

In this song Westlife described sadness, which is state that has made someone feel sad because he cannot forget his love and he show his brave to let her know that he loves her very much because he never very love someone before.

*Day after day
Time passed away
And I just can't get you off my mind
Nobody knows, I hide it inside
I keep on searching but I can't find*

At the stanza above, can be interpreted that “the man feels sad because he hiding inside to and keep on searching his love that he can’t find even though the man, already passed day by day to refresh his mind from his love but the man can not stop to think about his love.

*But if I let you go I will never know
What my life would be holding you close to me
Will I ever see you smiling back at me? How will I know*

Then at here, the man also feels sad because if he let his love go, he will never know how come his life without that love. And he will not know how his love will smiling back to him if he let his love go. And if he holds his love to close he will not know how will happen to his life. If we have love someone for a long time we must take care of that love do not let our love go even though we have argued with our partner. We can talk and have discussion properly to our partner with peaceful without argued each other.

*Night after night I hear myself say
Why can't this feeling just fade away
There's no one like you (no one like you)
You speak to my heart (speak to my heart)
It's such a shame we're worlds apart*

*I'm too shy to ask, I'm too proud to lose
But sooner or later I gotta choose
And once again I'm thinking about
Taking the easy way out*

Sadness:

At the stanza above, it also can be interpreted that “the man always talks with himself at night about forgetting his love on his mind but he thought no one like her that can understand his feeling but their worlds are different. The man was shy to ask and he decided not to ask and he does not want to relented. But soon or later he must decide to take the easy way about his love. The sadness feeling could come from anywhere, either because you will lost someone in your life that who you really love. If you really love someone whom you want to leave, then at that time you will feel no one can understand or love you like a person you abonded. If we abonded by someone, we will feel sad because we will feel something missing in our life, missing someone that we loved the most, that fill our emptiness every day, talk with us, having fun with us, sharing together,

playing each other etc. If we comfortable with our partner we should respect each other and believe in each other. So, our relationship will become strong and powerful and can make inspiration to other people.

4.1.7 Fool Again

In this song Westlife describes the feelings of hurt whom one keeps a big secret from the partner and lying to the partner and makes the partner feel disappointment and from that disappointment the partner also feel sad because of that big secret that the partner keeps and never let him know.

*Baby I know the story
I've seen the picture
It's written all over your face
Tell me, what's the secret
That you've been hiding
And who's gonna take my place*

*I should've seen it comin'
I should've read the signs
Anyway, I guess it's over*

In the stanza above, the man knows all about the story that the partner already keep for a long time. The secret that the man doesn't know for a long time. The man trusted the partner but the partner tells a lie and keeping the secret from the man.

*Can't believe that I'm the fool again
I thought this love would never end
How was I to know
You never told me
Can't believe that I'm the fool again
And I who thought you were my friend
How was I to know, you never told me*

*Baby, you should've called me
When you were lonely
When you needed me to be there
Sadly, you never gave me
Too many chances
To show you how much I care*

Sadness:

In the quotation above, if there is someone who made a mistake and made him upset, angry, resentful, sad and disappointed, then that people would have felt very deep hurt. Because, the partner already tells a lie and damaging the trust given by their partner. But in this song Westlife likes to convey any kinds of pain that you feel we should be able to forgive that person and do not hate them because they ever become our partner in love. In relationship, we must be honest to each other so the relationship will be stronger even though have a big storm.

Honest is the main point of relationship. If we trust each other, it will be good for our relationship but if we tell a lie in our relationship, it will make our relationship become distant.

4.1.8 Open Your Heart

Westlife, in this song describes a man with sad and regret love story. He was left his love without thinking long. He also tries to ask a second change for his love to come back in his live. Because he feels regret to left his love without any reason.

*I didn't mean to let you down
You have to believe it
I don't know what went through my mind
But now I can see*

*That I waited too long
To tell you how much it matters
Just to be right here with you
But I couldn't think of anything better
I should have told you so*

*Baby open your heart
Won't you give me a second chance
And i'll be here forever
Open your heart
Let me show you how much I care
And I will make you understand
If you open your heart
To love me once again*

Sadness:

At the stanza above, Westlife describes a man who felt a deep sadness since he aware of his regret for abonded his love without any reason. And now he asks a second chance and ask her partner to open her heart and accept it back to her heart. He will show how care he is if his partner wants to give a second chance and open her heart for him. Any kind of pain that you feel we should be able to forgive that person and do not grudge to him and positive thinking because there are many people who love you and care about you. For instance, your family, friends, etc, because they do not want to see you sad and hurt, they will always give supports and always be there for you whenever you are sad, wounded and crying. If someone already abonded us, we must keep on moving and looking at the future. No need to feel sad because we miss our love or abonded by someone. Because outside there still have many people or kind person that can become our partner in life. Think positive and look forward and see what will we get from this failure of love. From the failure we can learn how to become a better person.

4.1.9 In This Life

In this song Westlife describes the feeling of emptiness in a person who can not live without his belated love. And he feels lonely in everyday of his life without love. He gets free from his true love which help him go out from troubles which he has been through.

*for all i've been blessed with in this life
there was an emptiness in me
i was imprisoned by the power of gold
with one honest touch you set me free
let the world stop turning
let the sun stop burning
let them tell me love's not worth going through
if it all falls apart
i will know deep in my heart
the only dream that mattered had come true
in this life, i was loved by you*

Sadness:

In the quotation above, we can see that the man feels sad because in a long time he must be cooped up and during that time he also experienced a very deep loneliness without his love. As we know live with a loneliness situation can make our feeling becomes sad because we feel alone, no people take care of us, no one will look after of us etc. The man also said that even though the world was stop turning and the sun stop burning, the love will not go even though them relationship already falling apart the man will realize from his deep heart there will be one dream that will become truth, that in this life the man was loved by his partner.

*for every mountain i have climbed
and ever raging river crossed
you were the treasure that i longed to find
without you love i would be lost*

At the stanza above, the man also described again that every mountain that he has climbed and every time he crosses the river, the man just only finds the treasure and the treasure was his partner that he loved the most. Because the man said that his partner love he will be gone and nothing. Because as we know life without someone and love from someone is a very impossible thing. Humans need interaction with others and also have the desire to live with others and not live with family alone. We must have a positive thinking about our love that we already live this long. We should have a hope in every way of our troubles. We must trying to do a positive thing to win back our love that has been lost so far due to mistakes made in the past and realized too late and now feel sad because unknowingly the person cannot live without his love because for him to live without his love will make his life become lost.

4.1.10 I Cry

This song has its own meaning for the creator of his own material, for Westlife, this song is a song that describes sadness feel by a person to make people become sad and do not want to come out and look out. Because the partner said separate and he feel sad because of those words. He doesn't believe that his love will say the words separate.

*You said goodbye
I fell apart
I fell from all we had
To I never knew
I needed you so bad*

*You need to let things go
I know, you told me so
I've been through hell
To break the spell*

Sadness:

In the quotation above, someone is saying goodbye with his partner by saying the words “apart”. He feels sad because he remembers about all their memories that they had together. He never realized that he needs her very much. He asked the partner to sincere what already go and he still remember the words that he said and when he remembered it, he was very sorry and sad for those words. He also has experienced the joy and sorrow in destroying his love spell. He was very sad of all what does he do.

*Why did I ever let you slip away
Can't stand another day without you
Without the feeling
I once knew*

*I cry silently
I cry inside of me
I cry hopelessly
Cause I know I'll never breathe your love again
I cry
Cause you're not here with me
I cry
Cause I'm lonely as can be
I cry hopelessly
Cause I know I'll never breathe your love again*

In the stanza above, the man feels sad because he already let his love go away and he be aware that he couldn't live without his love with the feeling that he feels for his love. He cries for his love in the silent, he keeps on crying from his deepest heart because he lost of his love. He also wept in despair. He cries because his love doesn't beside him he keeps on crying because he felt loneliness and become sad. And he hopes he can look at his love again after this problems finish because he really felt sorry and sad for what ever happened. He also hoped that he can make his love will believe him someday. Because now he knows that he couldn't breathe without his love. He can just keep on crying and feel very sad of those problems that he already makes. So, if we want to make a decision we must think it properly and also, we must discuss it with our partner what's wrong with our relationship or some problems that we have.

CONCLUSION

A conclusion is important to reflect a whole investigation. For this purpose, the writer tries to conclude what she has in this thesis.

In human life, what someone wants to get can always not achieve as expectation. If the expectation cannot be approachable, someone will fell disappointment, and the disappointment will lead sadness. Feeling sad isn't good for our mind because it can cause stress, our thinking, perception and all of our activity will be disturbed. We must have a positive thinking for all things, thinking positively and we can get the best results for all things that we want or we think. If you can't think positively, you will get a bad result of thing in your mind and it will disturb all of your work, your happiness that you feel it every day will gone. Because in every human life actually full of troubles and problems. Human being always face various problems in the environments. Life involves a succession of changes and each change brings new challenges in our lives and new opportunities for growth and progress. At the same time, each change brings its own impacts. Human being can succeed achieving their goals but they also could be failed, and from the failure we can learned and raise again to become new person that create a new thing and give a wonderful ideas and our experience can make an inspiration for everybody. So, from the failure we can get the point what mistakes that we have already done and we can change it become a positive thing.

In the Westlife's songs, it states that someone feels sadness because of a variety of something, they cannot make it, for example if you already promise want to take care of someone and life with someone but you must leave that someone because of something, you will feel sorry, sad, upset and angry because you cannot live with that someone whom you loved the most, or late to understand about your love, hurt because looking at your partner go with other people.

In the song of Westlife, there is also have a deep sense of sadness and as if you were left by someone whom you loved very much. How sad it is? In the Westlife song also has another meaning of sadness, sadness that as a result of a Catastrophic event or how you feel, the sadness of regret for an act or your behaviour that you have done to make someone suffering. But if you feel sadness as a disaster, you should not feel sad for a long time and try to get up and keep the spirit of this life, as much as you can learn something from there still have a hope and happiness behind from that situation.
